

Week 11 Mentor Meeting

Date

Wed, 15 May 2024

12:30 PM - 1:00 PM

Participants

- Yujun Yan (mentor)
- Our team (Team Wombat)

Goals

- To present the previous week's work achievements to the mentor, clarify uncertainties in the Sprint 2 checklist, and discuss required diagrams, Agile Ceremonies, deployment issues, testing requirements, and code review processes.

Discussion topics

Item	Presenter	Notes
Front-End and Back-End Integration	<ul style="list-style-type: none">• Yuanwei Wang• Qingyuan Yang	<ul style="list-style-type: none">• Reported completion of the login and program sections' front-end and back-end integration, ensuring seamless functionality and user experience.
Front-End Development	<ul style="list-style-type: none">• Jianzhi Gao• Xue Jiao• Qiuling Liu	<ul style="list-style-type: none">• Successfully developed static pages for the school section, focusing on the user interface and layout to enhance user interaction.
Back-End Development	<ul style="list-style-type: none">• Yun Dai	<ul style="list-style-type: none">• Completed the development of the school interfaces, providing robust back-end support for the newly developed front-end structures.
Confluence Improvement	<ul style="list-style-type: none">• Yujun Yan	<ul style="list-style-type: none">• Put ethical consideration and cyber security to project overview page And improve the ethical consideration page.• If the project is not deployed, add a demo video in confluence.

Planned Actions and Next Steps

- ✓ **Front-End and Back-End Integration:** Yuanwei and Qingyuan will finalize the integration of the school section and make necessary adjustments to the edit functionality in the program section.
- ✓ **Web Page Design:** Jianzhi, Xue, and Qiuling are tasked with completing the development of the front-end static pages for the booking section.
- ✓ **Database Development:** Yun will continue to develop the back-end interfaces for the booking section, ensuring all data interactions are handled efficiently.

Additional Considerations

- ✓ Click here to expand...The complexity of the project was acknowledged, with an emphasis on a collaborative and iterative approach to development. The importance of a flexible system that could adapt to future needs and potentially integrate with broader university systems was highlighted.
- **Continuous Improvement:** The mentor's feedback is instrumental in refining the team's approach and ensuring compliance with industry best practices.
- **Team Responsiveness:** Team responsiveness is crucial in maintaining the momentum of the project and ensuring that issues are addressed promptly. Quick and effective responses not only solve problems faster but also help in sustaining team morale and client confidence.
